### Items:

---

#### ○ RESEARCH

Students will delve more deeply into their topics. Teacher will ask guiding questions

#### ○ CREATE

Students will put their research together with examples of Hidden Math. They will film, record, create a method that they could use to teach others' what they have learned.

#### ○ IMPROVE

Students will share their outlines, work, examples, ideas with peers and teachers. They will use feedback to make improvements prior to publication.

#### ○ REVISE

Students will make final changes to their topic. Presentations will be filmed and finalized. Students will have a clear explanation and examples of the Hidden Math in our world.

#### ○ PUBLISH

Students will have uploaded their projects to the class website, taking their place in the Virtual Math Museum.
